

Sorry – our work might put yours in the shade!

Project

To maximise the potential, a glazed extension was added to Institutional building headquarters which were to include a conference area that required protection from heat and glare and also room darkening for Screen projection requirements.

Solution

Pleated concertina style blinds were fitted within the aluminium structure and cut to suit irregular shaped panels.

Specification

20mm Endurashade Pleated blinds, motorised and made using Flame Retardant, solar reflective standard material
